

Accessories

More than just pumps

Accessories for

- ▶ drum and container pumps
- ▶ eccentric worm-drive pumps
- ▶ motors

Tailor-made products, intelligent solutions, comprehensive service and certified safety are the characteristic features of the versatile FLUX pump technology. With FLUX, you can rely on more than 60 years of competence highly appreciated all over the world. The special quality of the products and their long life guarantee process and operational reliability and prevent downtime costs.

The FLUX range of products includes:

- ▶ drum pumps
- ▶ eccentric worm-drive pumps
- ▶ centrifugal immersion pumps
- ▶ air-operated diaphragm pumps
- ▶ flow meters
- ▶ mixers
- ▶ complete system solutions
- ▶ extensive range of accessories

We offer an extensive range of accessories to supplement our large variety of drum, container and eccentric worm-drive pumps. We would like to present some of the especially interesting products beforehand.

FLUX offers solutions for the most varied types of industries and their special requirements.

FLUX FOOD pumps

The pumps of the FLUX FOOD series and their accessories meet the latest European safety standards for food contact. They comply with Regulation (EC) No. 1935/2004 and the „Plastics“ Regulation (EU) 10/2011 and are allowed to bear the glass-fork symbol. Moreover, they meet the requirements of the U.S. Food and Drug Administration (FDA).

FLUX hand nozzles

Outlet-side accessories exchangeable
(Various outlet spouts available for different applications)

Low force required
To operate the nozzle due to the ergonomic design of the handle

Safe handling
Pivot joint with revolving balls – guarantees absolute tightness even under pressure

Optimised valve ensures

- ▶ Easy operation
- ▶ Precise metering
- ▶ High flow
- ▶ Operational safety due to optimal sealing

More than just pumps

FLUX is a world renowned brand for the highest standards in pump technology. It all began in 1950 with the invention of the electric drum pump. Today, FLUX offers a wide range of products which can be configured individually. For example, FLUX pumps are used in the chemical and pharmaceutical industries, in machine and plant construction, as well as in electroplating, sewage treatment plants, and the food industry.

Whether as a stand-alone or a system solution, FLUX quality means long useful life, excellent economic efficiency and a maximum of safety.

Apart from the outstanding FLUX product quality and reliability, our clients appreciate the expertise and dedication of our employees to customer service.

Today, FLUX-GERÄTE GMBH supplies pumps to almost one hundred countries world wide.
